

CORNERSTONES
OF CARE

**WHETHER IT'S KEEPING CHILDREN
SAFE AT HOME OR SAFELY
BRINGING THEM BACK HOME ...**

We can help.

Keeping Children Safe at Home

Intensive in-home services is a **4-6 week** crisis intervention program that helps families **avert the out-of-home placement of children** due to juvenile delinquency, mental illness, substance abuse, family violence, abuse, and neglect.

We spend **8-10 hours per week** with the family to help families improve functioning and safety so they may remain together.

Bringing Children Safely Home

Intensive family reunification services is an **8-12 week** program for families **whose child has been removed from the home** due to safety concerns.

We spend **8-10 hours per week** with the family to build on family strengths, address areas of concern, create transition plans, and support the family during the child's safe transition home.

Families in Both Programs Receive:

- Strengths-based teams certified in trauma-informed care who are available 24/7.
- Individually customized interventions.
- Help improving problem-solving, parenting, communication, coping, and other skills.
- Connections to community resources.

Eligibility Requirements

- Referral from Missouri Children's Division.
- Families live in the counties we serve (visit cornerstonesofcare.org/youth for details).

Additional IFRS Requirements:

- Safety concerns have been resolved.
- The child has contact with the family.
- The court agrees on the child returning home.
